Course Goals

Course Description

Students are required to engage in non-graded individual therapy at their own expense with an approved clinician of their choice.

Academic Policies

General Guidelines for the Submission of Written Work

Formatting Papers

- Papers should be typed, double-spaced and follow the appropriate formatting guidelines (e.g. 1 inch margins).
- Follow the [Horizon Format Guide](#) consistently.
- The length of papers should fall within +/- 10% of the stated length. Papers that fall outside the length guidelines may not be graded and will receive a grade reduction.

Failure to follow these guidelines warrants a grade reduction.

Submitting Your Assignments

Assignments should be submitted via [Populi](#). The resource at this link

<https://support.populiweb.com/hc/en-us/articles/223792507-How-to-submit-work-for-assignments> explains how to submit assignments on Populi.

Late Assignments and Extensions

All assignments are due when stated by the professor or, if not specified, within 8 weeks after the first day of class. Please contact the professor well in advance if you would like to request an adjustment to any of your due dates. A late penalty will be assessed for all overdue assignments: 1-3 days late, penalty of 10%; 4-6 days late, penalty of 20%. After six days late, an assignment receives a grade of 0.

Academic Integrity

Students learn best when practicing academic integrity. A lack of integrity is displayed in acts such as deception, abuse of confidentiality, cheating, inappropriate collaboration, or plagiarism. Plagiarism occurs when a student presents the words or ideas of another person or an artificial intelligence (AI) tool in such a way as to give others the impression that it is their own words or ideas. In academic writing, there should be no doubt which words or ideas are the student's and which are drawn from other sources or AI. Students are expected to submit their own original work and give due recognition to sources from which all substantial phrases, sentences or even ideas are drawn. Note also that you may not submit work done in one course to satisfy the requirements of another course (unless both instructors agree beforehand to accept such work). See [here](#) for examples of plagiarism and further guidelines in the [Student Handbook](#).

Accessible Learning Services Information

Horizon aims to provide an accessible learning environment for all our students. If you would benefit from learning accommodations due to temporary or ongoing physical or mental health conditions or learning disabilities, please contact us as soon as possible to schedule a conversation. In all cases we ask that you provide current [documentation](#) of the disability or condition you wish to disclose. Horizon takes appropriate care to ensure confidentiality about any such disclosures. For more information, contact Richelle Bekkattla, Horizon's Library Technician, at library@horizon.edu.

Class Attendance

Students should attend all classes in order to facilitate competency development. Students are expected to be present through the delivery method that they registered for, either on campus or through live-streaming with their camera on. A student must be present for the full duration of a class period in order to be registered as present for the class. In the case of illness or other unforeseen circumstances, students may miss one day of a module course or three days of class in a term or semester course without academic penalty. Students who are absent for more than the number of classes stated above will automatically fail the course. Students wishing to be exempted from this policy due to extenuating circumstances may make an academic appeal, where they will need to document and verify those circumstances. Students who miss a class are responsible to get missed notes or handouts from another student, rather than from the professor.

Live-Streaming Etiquette

Students taking a course through live-streaming are required to indicate this during their course registration. While live-streaming access is available for on-campus students who are unable to attend class due to illness, on-campus students were expected to attend class in person following the class attendance policy.

If attending class online via live-stream, in order to be marked present for your class, you must keep your camera on and stay present and attentive throughout the class session, extending the gift of full engagement. Access your class with a computer (preferably) or tablet, not a cell phone. Arrive to class on time, and dress as you would if you were attending class on campus. Join the class from a quiet space with minimal background noise, and mute your microphone until you wish to speak to the class.

Use of Technology

Horizon encourages the use of electronic devices in the classroom to enhance learning. Careful consideration must be given to privacy issues, copyrighted materials, and the general care and concern for others. Please respect the following classroom policies:

- Please use online access for course learning only. This is a matter of respect for the instructor’s teaching, your own learning, and fellow students who may be distracted by other uses.
- Students should secure permission from the instructor to record any teaching material. This includes PowerPoint slides, white board illustrations, notes, and any form of audio or video.
- Student feedback is a valuable input for course improvements. Please resolve any classroom grievance about the instructor or course with the instructor personally, through the Horizon College and Seminary grievance procedures, or the Populi-based course evaluations. It is inappropriate to air classroom grievances on a social media platform.
- When instructors use recording mechanisms in the classroom, recorded materials will be used for the sole purpose of instruction and cannot be released to any social media outlet without the written consent of the students whose images have been recorded.
- In general, it is not acceptable to share photographs or videos of students in the classroom setting without permission from those whose images appear in such media.
