Course Assignments and Activities

1. *Video Lesson Discussions*

In order to pass the course, students are required to “attend” all video lectures and to discuss them via Padlet with the professor. Students will submit a 2–3-minute video report which: 1) confirms they have watched the required lectures for that time period, 2) summarizes one thing they learned that will help them reach the course learning outcomes, and 3) explains at least one question they had after watching the class videos. Students are welcome to add an additional comment or two. This assignment will be considered complete or incomplete.

Lecture video recordings are housed on VOD Video Centre. The link and password will be placed on Populi, under the “Syllabus” tab, under the list of “Links,” in the right column.

You can find instructions on how to access and post to Padlet in the “Padlet Instructions” lesson on Populi. **Padlet video report Submission Due Dates:**

- Day 1 Lectures & reports due Saturday Jan 17 at 11:59PM

Academic Policies

General Assignment Guidelines

Please see the [Horizon](#) & [MCS](#) Format Guide for assignment submission, grammar, and formatting guidelines. The length of papers should fall within +/- 10% of the stated length. Papers that fall outside the length guidelines may not be graded. Assignments should be submitted via Populi under *Submissions* (not *Comments*). The resource at this [link](#) explains how to submit assignments on Populi.

Extensions

To submit extension requests, students must submit the *Request Extension Form* on the [MCS](#) or [Horizon](#) website and *before the due date*. Professors reserve the right to deny extensions. Generally, the sooner that a student asks for an extension, the more willing faculty tend to be in granting extensions. Furthermore, no extensions will be granted beyond the final day of a term or semester unless approval is granted by the Associate Academic Dean (MCS) or Assistant Academic Dean (Horizon).

Late Assignments

Students are expected to submit work by the assigned or extended due dates, as part of their development of the Leadership and Administration competency. Late submissions will be tracked across each student's program. Repeated late submissions, including late submissions of revisions, will result in academic discipline, such as warnings, required coaching, or academic probation. Similar to standard human resource employment practices, students will receive warnings and conditions with increasing severity of academic discipline.

If an assignment is submitted more than four calendar days late, the student will receive a failing grade (0%) for that assignment until it is submitted (students must demonstrate competency by submitting and passing all assignments to pass a course). Upon submission, the assignment may not be graded until revision week. In addition, the student will receive the grade for the assignment with minimal feedback (only a brief rationale for the assignment grade) and no opportunity to submit revisions.

Assignment Completion

Professors usually will not accept assignments that have not been completed according to the instructions given in the syllabus. If a professor informs a student that a submitted assignment is incomplete, the student will be given the opportunity to complete and resubmit the assignment quickly. If this is not possible, the assignment will be regarded as submitted late.

Assignment Revisions

Students can generally submit up to two revisions for each assignment, although a professor may accept more revisions if the professor determines the student is addressing all of the professor's instructions and making significant progress toward achieving competency.

Horizon and MCS's College Assessment of Student Work

The goal of courses is to help students develop their competency, not earn letter grades.

Assignments are the means by which instructors evaluate development of competency by assessing learning outcomes as outlined in the syllabus and each assignment rubric. Once a student's assignment has met all competency requirements, the professor will assign a grade for that assignment. Assignments that do not meet competency will receive a 0. A final course grade is not calculated until the end of the course. Students pass a course (with a B- or higher) only after they have demonstrated that they have *met or exceeded all competency requirements* for that course and, therefore, only after they have passed all assignments.

Horizon and MCS CBE Scale		Descriptor	Letter Grade	Grade Point	U of S Equivalency
E	Exceeding expectations	Student demonstrated exceptional achievement of the learning outcomes.	A+	4.0	90-100
			A	4.0	85-89
			A-	3.7	80-84
M	Meeting expectations	Student demonstrated good achievement of all learning outcomes.	B+	3.3	77-79
			B	3.0	73-76
			B-	2.7	70-72

If the student does not meet all competency requirements in a course and, therefore, does not pass all the assignments in a course, the course will not be sufficient to fulfill their program requirements at Horizon and MCS. Nevertheless, for transferability purposes, the student will receive a letter grade of C+ or below according to the scale below.

BTM	Beginning to meet expectations	Student was beginning to meet one or more learning outcomes.	C+	2.3	67-69
			C	2.0	63-66
			C-	1.7	60-62
NYM	Not yet meeting expectations	Student made insufficient progress toward meeting learning outcomes.	D+	1.3	57-59
			D	1.0	53-56
			D-	0.7	50-52
			F	0.0	0-49

Academic Integrity

Students learn best when practicing academic integrity. A lack of integrity is displayed in acts such as deception, abuse of confidentiality, cheating, inappropriate collaboration, or plagiarism. Plagiarism occurs when a student presents the words or ideas of another person or an artificial intelligence (AI) tool in such a way as to give others the impression that it is their own words or ideas. In academic writing, there should be no doubt which words or ideas are the student's and which are drawn from other sources or AI. Students are expected to submit their own original work and give due recognition to sources from which all substantial phrases, sentences or even ideas are drawn. Note also that you may not submit work done in one course to satisfy the requirements of another course (unless both instructors agree beforehand to accept such work). See [here](#) for examples of plagiarism and further guidelines in the Student Handbook.

Horizon and MCS have a subscription to software that ensures the originality of academic writing, verifies the proper citation of all sources, and detects AI-generated content. When you submit an assignment, you will automatically receive a summary on Populi that includes your submitted files along with an originality score (a high originality score is positive).

Artificial Intelligence (AI) Usage

In keeping with the Academic Integrity policy above, students must disclose on the title page of all assignments whether or not they have used AI and how they have used it. If the assignment has no title page, the student must disclose this to the instructor by some other means, such as in a comment on Populi. Students are expected to follow the policy for acceptable use of AI that is published in the [Horizon](#) and [MCS](#) Student Handbooks.

Accessible Learning Services Information

Horizon and MCS are committed to provide safe and inclusive learning environments which equalize the opportunity for students with disabilities to meet the requirements of the institutions, programs, and courses. The application for Academic Accommodations begins with a student disclosing a medical diagnosis or professionally documented learning disability during the application process. Enrolled students may contact Accessibility services personnel (at MCS, the Director of Academic Success, Wendy Holmes at wendy.holmes@mcs.edu; at Horizon, the Academic Accommodations Coordinator, Richelle Bekkattla at rbekkattla@horizon.edu). All Academic Accommodations will adhere to the Guiding Principles listed in the Student Handbooks.

Class Attendance (On Campus or Livestreaming)

Students should attend all classes in order to facilitate competency development. Students are expected to be present through the delivery method that they registered for, either on campus or through livestreaming with their camera on. A student must be present for the full duration of a class period in order to be registered as present for the class. In the case of illness or other unforeseen circumstances, students may miss the equivalent of six hours of class (e.g., one day of a module course or two three-hours classes) without academic penalty. Students who are absent for more than this will automatically fail the course. Students wishing to be exempted from this policy due to extenuating circumstances may make an academic appeal, where they will need to document and verify those circumstances. Students who miss a class are responsible to get missed notes or handouts from another student, rather than from the professor.

Livestreaming Etiquette

Students taking the course through livestreaming are required to indicate this during their course registration. While livestreaming access is available for on-campus students who are unable to attend class due to illness, on-campus students are expected to attend class in person following the class attendance policy.

If attending class online via livestream, in order to be marked present for class, you must keep your camera on and stay present and attentive throughout the class session, extending the gift of engagement. Access your class with a computer (preferably) or tablet, not a cell phone. Arrive to class on time, and dress as you would if you were attending class on campus. Join the class from a quiet space with minimal background noise and mute your microphone until you wish to speak to the class.

Use of Technology

Horizon and MCS encourage the use of electronic devices in the classroom to enhance learning. Careful consideration must be given to privacy issues, copyrighted materials, and the general care and concern for others. Please respect the following classroom policies:

- Please use online access for course learning only. This is a matter of respect for the instructor's teaching, your own learning, and fellow students who may be distracted by other uses.
- Students should secure permission from the instructor to record any teaching material. This includes PowerPoint slides, white board illustrations, notes, and any form of audio or video.
- Student feedback is a valuable input for course improvements. Please resolve any classroom grievance about the instructor or course with the instructor personally, through the grievance procedures, or the Populi-based course evaluations. It is inappropriate to air classroom grievances on a social media platform.
- When instructors use recording mechanisms in the classroom, recorded materials will be used for the sole purpose of instruction and cannot be released to any social media outlet without the written consent of the students whose images have been recorded.
- In general, it is not acceptable to share photographs or videos of students in the classroom setting without permission from those whose images appear in such media.

Accessing Quality Resources

Horizon and MCS are part of the **Digital Theological Library**—a robust **subscription-based** library resource. Horizon also belongs to the Saskatoon Theological Union Library, a library consortium containing nearly 125,000 volumes. The STU library is one of the largest theological libraries in western Canada. Additionally, since Horizon is an Affiliated College of the University of Saskatchewan Horizon students have borrowing privileges at all University of Saskatchewan libraries, including free access to interlibrary loans.

Assessing Resources for Quality

Not all resources are equal. When assessing resources, be aware of:

- The source's *actual expertise* (what are your source's credentials? What is your source *qualified* to tell you? Does the source have *legitimate expertise* in its area?);
- The source's intended **purpose** (is your source scholarly? devotional? homiletical?);
- The source's **currency** (how up-to-date is your source? Matthew Henry is long dead...let him rest in peace! Similarly, Vine's Dictionary and Strong's Concordance use long discarded definitions of Greek and Hebrew words. Using definitions from these sources is like a doctor using a 1st edition of Gray's Anatomy to practise medicine today!);
- The source's **theological or ideological bias**. This is often more difficult to discern, but it's important to be aware that *everyone* has biases, and sometimes even recognized scholars are pushing particular agendas.

Commentary Series

Although commentaries must be assessed on an individual basis, the editorial intentions of certain series make it possible to comment on them generally. This is not an exhaustive list.

- *Anchor Bible Commentaries*. Semi-technical; original languages transliterated; both academically rigorous and sensitive to intelligent non-specialists.
- *Baker Exegetical Commentary on the New Testament*. Semi-technical recent Evangelical series; transliterated Greek.
- *Black's New Testament Commentaries*. Semi-technical; transliterated Greek; less rigorous than the Anchor Bible.
- *Brazos Theological Commentary on the Bible*. A careful, Evangelical discussion of the meaning of the biblical text; primary purpose is to identify theological significance.
- *Hermeneia*. Technical; original languages. Don't be fooled by its small size – assumes much background knowledge of its readers. Always read the footnotes. Not evangelical.
- *International Critical Commentaries*. Technical; knowledge of original languages.
- *Interpretation*. Non-technical but scholarly; aimed at pastors and non-specialists, it deals usefully but generically with current critical issues; does not comment on every verse.

- *The IVP Commentary Series*. Non-technical, by Evangelical scholars. Published also as Tyndale Old Testament Commentaries and The Bible Speaks Today series. Somewhat dated; NT now accessible at www.biblegateway.com/resources/ivp-nt/toc/.
- *The New American Commentary*. Semi-technical Evangelical series; original languages in footnotes.
- *New Century Bible*. Non-technical; written by critical scholars and aimed at lay readers.
- *New Covenant Commentary*. Non-technical by Evangelical authors; attendant to theology and contemporary application.
- *New International Commentary on the Old Testament/ New International Commentary on the New Testament*. Semi-technical; knowledge of original languages will help, but unnecessary. This series is updating its publications, so there are often two independent commentaries for a given biblical book.
- *New International Biblical Commentary*. Non-technical Evangelical series; reasonable overview of issues.
- *New International Greek Testament Commentaries*. Technical; assumes some knowledge of Greek.
- *New Interpreter's Bible*. A Bible commentary in 12 volumes. Non-technical, by first-rate scholars.
- *The NIV Application Commentary*. Non-technical Evangelical series. Mixed quality.
- *The Old Testament Library*. Semi-technical critical series; languages transliterated.
- *Sacra-Pagina*. Semi-technical; Roman Catholic series; critical but sensitive to the non-specialist.
- *Word Biblical Commentaries*. Technical; original languages; offers verse-by-verse exegesis and a separate explanation section.
- *Zondervan Critical Introductions to the New Testament*. Emerging Evangelical series focused on critical aspects of the NT that are often treated only minimally in full-length commentaries.

Words

The Bible is composed of words written in Aramaic, Hebrew, and Greek. Since most of the following resources require some knowledge of the original languages, use an English concordance to find words in their original languages.

- *A Concise Hebrew and Aramaic Lexicon of the Old Testament* (Eerdmans, 1972).
- *Exegetical Dictionary of the New Testament*. 3 vols (Eerdmans, 1990-93).
- *A Greek-English Lexicon of the New Testament and Other Early Christian Literature*. 3rd ed. (University of Chicago, 2000).
- **New International Dictionary of New Testament Theology*, Rev. ed. 4 vols (Zondervan, 1986) (*Lists terms in English; Greek words can be looked up in the index).
- *New International Dictionary of New Testament Theology and Exegesis*. 4 vols (Zondervan, 2014).
- *New International Dictionary of Old Testament Theology and Exegesis*. 5 vols. (Zondervan, 1997).

- *Theological Dictionary of the New Testament*, 10 vols (Eerdmans, 1964-76)/
Theological Dictionary of the Old Testament, 15 vols (Eerdmans, 1975-2015).

Digital and Online Sources

Despite popular opinion, everything *is not* now available for free on the Internet. Mostly, the Internet gives free access to unaccountable opinion pieces or resources that are out of copyright (and often out of date). The most current and reliable resources are still protected by publisher's copyright and need to be purchased as books or online through paid access.
